SPECIFICATIONS

Max Temp: 200°F	Size: 1/3 OZ. (9.3 g)
Viscosity: 80-100 cP	Part #: 30410
Shear Strength: 3650 psi	GHS Compliant for:
Max Gap Fill: 0.005	US, Canada & Mexico
Color: Clear	

USAGE

RUBBER

PLASTIC

ABOUT VIBRA-TITE 304

A single component, fast curing, low to medium viscosity cyanoacrylate adhesive designed to excel at the bonding of plastics and rubber. The surface insensitive formula provides excellent bonding to most materials including elastomers, metals, and plated surfaces. Can be used for dry or acidic conditions.

Available in 1/3 oz yellow bottle with pin-in-cap to help extend shelf-life.

THE BENEFITS

Excellent for Bonding Plastics and Elastomers

Use to bond track, o-rings, belts, pads, bumpers, gaskets and more. Compatible with multiple elastomers including ABS, PVC, Polycarbonate, Phenolic, Neoprene, Nitrile, and rubber.

Fast Curing Speed

Sets within 20 seconds on most materials with a full cure after 24 hours.

A-A-3097 Qualified

Vibra-Tite 304 has been qualified to commercial item description A-A-3097 Type 2 Class 2 (MIL-A-46050C).
