Reviewed on 01/29/2024

Page 1/7

1 Identification

- Product identifier

- Trade name: Vibra-TITE® Excel Structural Activator
 - Synonyms: 600 Excel Structural Activator
 - **Part number:** VT600
 - Application of the substance / the mixture Activator

- Details of the supplier of the safety data sheet

- *Manufacturer/Supplier:* ND Industries, Inc 1000 North Crooks Road Clawson, MI 48017 USA Telephone: +1-248-288-0000 Email: info@ndindustries.com Website: www.ndindustries.com

- Information department: Product Safety Department - Emergency telephone number:

United States: 1-800-424-9300 International: +1-703-527-3887

2 Hazard identification

- Classification of the substance or mixture

GHS08 Health hazard

Reproductive Toxicity - Category 1B

GHS07

Skin Irritation - Category 2H315 Causes skin irritation.Eye Irritation - Category 2AH319 Causes serious eye irritation.Specific Target Organ Toxicity - Single Exposure - Category 3H335 May cause respiratory irritation.

- Label elements

- GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).

H360 May damage fertility or the unborn child.

- Hazard pictograms

- Signal word Danger
- Hazard-determining components of labeling: tetrahydrofurfuryl methacrylate
- tetrahydro-2-furylmethanol
- Hazard statements
- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H360 May damage fertility or the unborn child.
- H335 May cause respiratory irritation.
- Precautionary statements
- P201 Obtain special instructions before use.
- P202 Do not handle until all safety precautions have been read and understood.
- P261 Avoid breathing dust/fume/gas/mist/vapours/spray.
- P264 Wash thoroughly after handling.
- P271 Use only outdoors or in a well-ventilated area.
- P280 Wear protective gloves/protective clothing/eye protection/face protection.
- P280 Wear protective gloves.
- P302+P352 If on skin: Wash with plenty of water.

Safety Data Sheet

according to HPR, Schedule 1

Reviewed on 01/29/2024

Trade name: Vibra-TITE® Excel Structural Activator

	(Contd. c	of page 1)
P304+P340	IF INHALED: Remove person to fresh air and keep comfortable for breathing.	
P305+P351+P338	8 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and eas	y to
	do. Continue rinsing.	•
P308+P313	IF exposed or concerned: Get medical advice/attention.	
P312	Call a poison center/doctor if you feel unwell.	
P321	Specific treatment (see on this label).	
P362+P364	Take off contaminated clothing and wash it before reuse.	
P332+P313	If skin irritation occurs: Get medical advice/attention.	
P337+P313	If eye irritation persists: Get medical advice/attention.	
P403+P233	Store in a well-ventilated place. Keep container tightly closed.	
P405	Store locked up.	
P501	Dispose of contents/container in accordance with local/regional/national/international regulations.	

3 Composition/Information on ingredients

- Chemical characterization: Mixtures

- Description: Mixture of the substances listed below with nonhazardous additions.

- Dangerous components:

CAS: 2455-24-5	tetrahydrofurfuryl methacrylate	60 – 80% w/w
	Skin Irritation - Category 2, H315; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H335	-
CAS: 34562-31-7	3,5-diethyl-1,2-dihydro-1-phenyl-2-propylpyridine	10 – 30% w/w
	Acute Toxicity (Oral) - Category 4, H302; Acute Toxicity (Dermal) – Category 4, H312; Skin Irritation - Category 2, H315; Eye Irritation - Category 2B, H320	-
CAS: 128-37-0	Butylated hydroxytoluene	0.1 – 1% w/w
	Acute Toxicity (Oral) - Category 4, H302; Skin Irritation - Category 2, H315; Eye Irritation - Category 2A, H319; Specific Target Organ Toxicity - Single Exposure - Category 3, H336	-
CAS: 97-99-4	tetrahydro-2-furylmethanol	0.1 – 1% w/w
	Reproductive Toxicity - Category 1B, H360; Acute Toxicity (Oral) - Category 4, H302; Eye Irritation - Category 2A, H319; Flammable Liquids - Category 4, H227	-
CAS: 1338-02-9	Metal Salt Complex	0.1 – 1% w/w
	Flammable Liquids - Category 3, H226; Acute Toxicity (Inhalation) - Category 3, H331; Acute Toxicity (Oral) - Category 4, H302	-

- Description of first aid measures

- After inhalation:

In case of unconsciousness place patient stably in side position for transportation.

Supply fresh air; consult doctor in case of complaints.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: If symptoms persist consult doctor.
- Information for doctor:
 - Most important symptoms and effects, both acute and delayed No further relevant information available.
 - Indication of any immediate medical attention and special treatment needed
 - No further relevant information available.

5 Fire-fighting measures

- Extinguishing media

- Suitable extinguishing agents: Use fire fighting measures that suit the environment.

- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
- Protective equipment:

Wear self-contained respiratory protective device.

Wear fully protective suit.

6 Accidental release measures

- **Personal precautions, protective equipment and emergency procedures** Ensure adequate ventilation Wear protective clothing.
- Environmental precautions: Do not allow to enter sewers/ surface or ground water.
- Methods and material for containment and cleaning up:
- Ensure adequate ventilation. Dispose of the collected material according to regulations.
- **Reference to other sections** See Section 7 for information on safe handling.

Safety Data Sheet

according to HPR, Schedule 1

Printing date 01/29/2024

Trade name: Vibra-TITE® Excel Structural Activator

(Contd. of page 2)

Reviewed on 01/29/2024

See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- Handling:

- Precautions for safe handling
- Ensure good ventilation/exhaustion at the workplace.
- Prevent formation of aerosols.

- Information about protection against explosions and fires: No special measures required.

- Conditions for safe storage, including any incompatibilities

- Storage:
 - Requirements to be met by storerooms and receptacles: No special requirements.
 - Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

8 Exposure controls/ Personal protection

- Additional information about design of technical systems: No further data; see section 7.

- Control parameters

- Components with limit values that require monitoring at the workplace:

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

CAS: 128-37-	0 Butylated hydroxytoluene
EL (Canada)	TWA: 2 mg/m ³ vapour and inhalable aerosol
EV (Canada)	TWA: 2 mg/m³ inhalable, vapour and aerosol
REL (USA)	TWA: 10 mg/m ³
TLV (USA)	TWA: 2* mg/m ³ *as inhalable fraction and vapor, A4
CAS: 97-99-4 tetrahydro-2-furylmethanol	
WFFL (USA)	TWA: 0.5 ppm

- Additional information: The lists that were valid during the creation were used as basis.

- Exposure controls

- Personal protective equipment:

General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed.

Immediately remove all soiled and contaminated clothing.

- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.

- Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

- Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Nitrile rubber, NBR

- Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Body protection: Protective work clothing
