1 Identification

- Product identifier

- Trade name: Vibra-TITE® Methacrylate Adhesives
 - Synonyms: PB330 All Purpose Medium Set Time; High Strength Part A
 - Part number: VTPB330A
 - Application of the substance / the mixture Adhesives

- Details of the supplier of the safety data sheet

- *Manufacturer/Supplier:* ND Industries, Inc 1000 North Crooks Road Clawson, MI 48017 USA Telephone: +1-248-288-0000 Email: info@ndindustries.com Website: www.ndindustries.com

- Information department: Product Safety Department

- *Emergency telephone number:* United States: 1-800-424-9300 International: +1-703-527-3887

2 Hazard(s) identification

- Classification of the substance or mixture

Flammable Liquids 2

H225 Highly flammable liquid and vapor.

H351 Suspected of causing cancer.

GHS08 Health hazard

Carcinogenicity 2

GHS07

Skin Irritation 2H315 Causes skin irritation.Eye Irritation 2AH319 Causes serious eye irritation.Sensitization - Skin 1H317 May cause an allergic skin reaction.Specific Target Organ Toxicity - Single Exposure 3H335 May cause respiratory irritation.

- Label elements

- GHS label elements The product is classified and labeled according to the Globally Harmonized System (GHS).

- Hazard pictograms

- Signal word Danger

- Hazard-determining components of labeling: methyl methacrylate Cumene
 2-Butenedioic acid (2Z)
- Monofunctional acid ester Rosin

Hazard statements

H225 Highly flammable liquid and vapor.

- H315 Causes skin irritation.
- H319 Causes serious eye irritation.
- H317 May cause an allergic skin reaction.

3 Composition/information on ingredients

- Chemical characterization: Mixtures

- Description: Mixture of the substances listed below with nonhazardous additions.

CAS: 80-62-6	methyl methacrylate	70 – 79%
	Flammable Liquids 2, H225; Skin Irritation 2, H315; Sensitization - Skin 1, H317; Specific Target Organ Toxicity - Single Exposure 3, H335	
CAS: 128-37-0	Butylated hydroxytoluene	≤ 1%
	Acute Toxicity - Oral 4, H302; Skin Irritation 2, H315; Eye Irritation 2A, H319; Specific Target Organ Toxicity - Single Exposure 3, H336	
CAS: 80-15-9 dimethylbenzyl hydroperoxide		≤ 1%
	Self-reactive substances and mixtures - Type F, H242; Organic Peroxides - Type E, H242; Acute Toxicity - Inhalation 3, H331; Specific Target Organ Toxicity - Repeated Exposure 2, H373; Aspiration Hazard 1, H304; Skin Corrosion 1B, H314; Eye Damage 1, H318; Acute Toxicity - Oral 4, H302; Acute Toxicity - Dermal 4, H312; Specific Target Organ Toxicity - Single Exposure 3, H335; Flammable Liquids 4, H227	
CAS: 110-16-7	2-Butenedioic acid (2Z)	≤ 1%
	Acute Toxicity - Oral 4, H302; Acute Toxicity - Dermal 4, H312; Skin Irritation 2, H315; Eye Irritation 2A, H319; Sensitization - Skin 1, H317; Specific Target Organ Toxicity - Single Exposure 3, H335	
	Monofunctional acid ester	≤ 1%
	Acute Toxicity - Dermal 3, H311; Skin Corrosion 1C, H314; Eye Damage 1, H318; Sensitization - Skin 1, H317	
CAS: 8050-09-7	Rosin	≤ 1%
	Sensitization - Skin 1, H317	
CAS: 98-82-8	Cumene	≤ 1%
	Flammable Liquids 3, H226; Carcinogenicity 2, H351; Aspiration Hazard 1, H304; Acute Toxicity - Oral 4, H302; Specific Target Organ Toxicity - Single Exposure 3, H335	

4 First-aid measures

- Description of first aid measures

- After inhalation:

Supply fresh air and to be sure call for a doctor.

In case of unconsciousness place patient stably in side position for transportation.

Supply fresh air; consult doctor in case of complaints.

- After skin contact: Immediately wash with water and soap and rinse thoroughly.
- After eye contact: Rinse opened eye for several minutes under running water. If symptoms persist, consult a doctor.
- After swallowing: If symptoms persist consult doctor.

Trade name: Vibra-TITE® Methacrylate Adhesives

(Contd. of page 2)

Reviewed on 01/26/2024

- Information for doctor:

- Most important symptoms and effects, both acute and delayed No further relevant information available.
- Indication of any immediate medical attention and special treatment needed
- No further relevant information available.

5 Fire-fighting measures

Extinguishing media

- Suitable extinguishing agents: CO2, sand, extinguishing powder. Do not use water.
- For safety reasons unsuitable extinguishing agents: Water
- Special hazards arising from the substance or mixture No further relevant information available.
- Advice for firefighters
 - Protective equipment:
 - Wear self-contained respiratory protective device.
- Wear fully protective suit.

6 Accidental release measures

See Section 8 for information on personal protection equipment. See Section 13 for disposal information.

7 Handling and storage

- Handling:

- Precautions for safe handling

Ensure good ventilation/exhaustion at the workplace.

Prevent formation of aerosols.

- Information about protection against explosions and fires:

Keep ignition sources away - Do not smoke. Protect against electrostatic charges.

- Conditions for safe storage, including any incompatibilities

- Storage:

- Requirements to be met by storerooms and receptacles: No special requirements.
- Information about storage in one common storage facility: Not required.
- Further information about storage conditions: Keep receptacle tightly sealed.

- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see section 7.

- Control parameters

- Components with limit values that require monitoring at the workplace:

At this time, the other constituents have no known exposure limits.

CAS: 80-62-6 methyl methacrylate PEL Long-term value: 410 mg/m³, 100 ppm REL Long-term value: 410 mg/m³, 100 ppm TLV Short-term value: 100 ppm Long-term value: 50 ppm DSEN, A4

- Additional information: The lists that were valid during the creation were used as basis.

- Exposure controls

- Personal protective equipment:

- General protective and hygienic measures:
- Keep away from foodstuffs, beverages and feed.
- Immediately remove all soiled and contaminated clothing.
- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.
- Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

- Protection of hands:

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Nitrile rubber, NBR

- Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

- Body protection: Protective work clothing

9 Physical and chemical properties

Information on basic physical and che	emical properties
- General Information	
- Appearance:	
- Form:	Viscous
- Color:	Whitish
- Odor:	Pungent
 Odor threshold: 	Not determined.
- pH-value at 20 °C (68 °F):	5
- Change in condition	
 Melting point/Melting range: 	Undetermined.
 Boiling point/Boiling range: 	≥ 101 °C (≥ 213.8 °F)
- Flash point:	10 °C (50 °F)
- Flammability (solid, gaseous):	Highly flammable.
- Auto igniting:	430 °C (806 °F)
- Decomposition temperature:	Not determined.
- Ignition temperature:	Product is not selfigniting.
- Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.

Prevent formation of aerosols.

- *Information about protection against explosions and fires:* Keep ignition sources away - Do not smoke. Protect against electrostatic charges.
- Conditions for safe storage, including any incompatibilities
 - Storage:
 - Requirements to be met by storerooms and receptacles: No special requirements.
 - Information about storage in one common storage facility: Not required.
 - Further information about storage conditions: Keep receptacle tightly sealed.
- Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- Additional information about design of technical systems: No further data; see section 7.

- Control parameters

Components with limit values that require monitoring at the workplace:

At this time, the remaining constituent has no known exposure limits.

CAS	80-62-6 methyl methacrylate
PEL	Long-term value: 410 mg/m ³ , 100 ppm
REL	Long-term value: 410 mg/m ³ , 100 ppm
TLV	Short-term value: 100 ppm Long-term value: 50 ppm DSEN, A4
CAS	128-37-0 Butylated hydroxytoluene
REL	Long-term value: 10 mg/m ³
TLV	Long-term value: 2* mg/m³ *as inhalable fraction and vapor, A4
	- Additional information: The lists that were valid during the creation were used as basis.

- Exposure controls

Personal protective equipment:

- General protective and hygienic measures:

Keep away from foodstuffs, beverages and feed. Immediately remove all soiled and contaminated clothing. Wash hands before breaks and at the end of work.

Avoid contact with the skin.

- Avoid contact with the eyes and skin.
- Breathing equipment:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use respiratory protective device that is independent of circulating air.

Protection of hands:

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation. Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation

- Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer. As the product is a preparation of several substances, the resistance of the glove material can not be calculated in advance and has therefore to be checked prior to the application. Nitrile rubber, NBR

- Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

Physical and chemical properties				
- Information on basic physical and chemical properties - General Information				
- Appearance: - Form:	Viscous			
- Color:	Whitish			
- Odor:	Pungent			
- Odor threshold:	Not determined.			
- pH-value:	Not determined.			
- Change in condition				
- Melting point/Melting range:	Undetermined.			
 Boiling point/Boiling range: 	≥ 101 °C (≥ 213.8 °F)			
- Flash point:	10 °C (50 °F)			
- Flammability (solid, gaseous):	Highly flammable.			
- Auto igniting:	430 °C (806 °F)			
- Decomposition temperature:	Not determined.			
- Ignition temperature:	Product is not selfigniting.			
- Danger of explosion:	Product is not explosive. However, formation of explosive air/vapor mixtures are possible.			
- Explosion limits:				
- Lower:	2.1 Vol %			
- Upper:	12.5 Vol %			
- Vapor pressure at 20 °C (68 °F):	≤ 47 hPa (≤ 35.3 mm Hg)			
- Density at 20 °C (68 °F):	~ 1.25 g/cm³ (~ 10.43125 lbs/gal)			
- Relative density	Not determined.			
- Vapor density	Not determined.			
- Evaporation rate	Not determined.			
- Solubility in / Miscibility with				
- Water: Not miscible or difficult to mix.				
- Partition coefficient (n-octanol/water): Not determined.				
- Viscosity:				
- Dynamic at 20 °C (68 °F):	100,000 mPas			
- Kinematic:	Not determined.			
- Solvent content:				
- VOC content:	0.00 %			
	0.0 g/l / 0.00 lb/gal			
- Solids content:	26.7 %			
- Other information	No further relevant information available.			

10 Stability and reactivity

- Reactivity No further relevant information available.

- Chemical stability

- Thermal decomposition / conditions to be avoided: No decomposition if used according to specifications.

- Possibility of hazardous reactions No dangerous reactions known.

- Conditions to avoid No further relevant information available.

- Incompatible materials: No further relevant information available.

- Hazardous decomposition products: No dangerous decomposition products known.

UN1133

Printing date 01/26/2024

Reviewed on 01/26/2024

Trade name: Vibra-TITE® Methacrylate Adhesives

UN proper shipping name - DOT	
- DOT - IMDG, IATA	Adhesives ADHESIVES
Transport hazard class(es)	
- DOT	
- Class	3 Flammable liquids
- Label	3
- IMDG, IATA	
- Class	3 Flammable liquids
- Label	3
Packing group	
- DOT, IMDG, IATA	II
Environmental hazards:	
- Marine pollutant:	No
Special precautions for user - Hazard identification number (Kemler code):	Warning: Flammable liquids
- EMS Number:	- F-E,S-D
- Stowage Category	A
Transport in bulk according to Annex II of MARPOL73/2 and the IBC Code	78 Not applicable.
Transport/Additional information:	
- DOT	
- Quantity limitations	On passenger aircraft/rail: 60 L
	On cargo aircraft only: 220 L
- IMDG	
- Limited quantities (LQ) - Excepted quantities (EQ)	5L Code: E1
	Maximum net quantity per inner packaging: 30 ml
	Maximum net quantity per outer packaging: 1000 ml
UN "Model Regulation":	UN 1133 ADHESIVES, 3, II
Regulatory information	
Safety, health and environmental regulations/legislatio No further relevant information available. - Sara	
- Section 355 (extremely hazardous substance	s):
None of the ingredients is listed.	
- Section 313 (Specific toxic chemical listings)	:
CAS: 80-62-6 methyl methacrylate CAS: 13395-16-9 copper(II) 4-oxopent-2-en-2-olate	
- TSCA (Toxic Substances Control Act): All components have the value ACTIVE.	
- Hazardous Air Pollutants CAS: 80-62-6 methyl methacrylate
